

DB/INFO ©

Product Description

Mainframe Utility

DB/INFO, offered as an individual add-on product or as a part of EXtended Processing Option (XPO), enhances the CA-IDMS® system environment. It assists users by displaying information of a Central Version's (CV) database files, the disk journal, and the load module libraries. DB/INFO is especially helpful to the user of DB/DUPLEX® and DB/DYNAM®, it shows the CV duplex entities and their status online including the user generated duplex table, and the mode of the duplex operation.

Current Level: Release 5.1

Type of License: CPU/SITE

Installation: User, 30 Day Trial

Highlights

- Operates as an independent CA-IDMS/DC task
- Simple and easy to use syntax
- Display in DC line-out mode
- Fully integrated with DB/DUPLEX, DB/DYNAM and JOURNAL/DUPLEX®

Technical Information
